

Justin Boblitt  
German Flashcards  
Jetty Webserver API

Port 8080

URL	Response format	Response	Worst case scenario
/	Plain text	Test string to verify connection	
/userdecktree	Json array	All decks saved in the server.	If no decks have been saved in the server, an empty array is returned.
/userdecktree?username=<usr_name>	Json	Deck mapped to by single username	If a client username does not exist in the server, null is returned.
